

# ZUWA

## WALL | CEILING

The ZUWA wooden collection of ceiling and wall lamps is made of high-quality and solid wood. Lamps are beautiful, delicate lines that have been highlighted by the natural texture of wood.

The ceiling lamps are available in three sizes (275 mm, 375 mm, 475 mm) and many colour variations. Thanks to the glass diffuser, the light gently dissipates inside, creating a unique atmosphere in the room. The lamps are made of a real piece of wood, thanks to which the whole creates a unique form of expressive and strong character, which has been softened by round lines. Natural materials in interiors are a timeless and always up-to-date trend.

**TECHNICAL INFORMATIONS:**

- Light fitting for indoor use only
- Bulb to be used: E27, max. 24 W (not included)
- Product compatible with LED light sources
- Product compatible with dimmable light sources
- Energy Efficiency Class: A++, A+, B, C, D
- Maximum voltage: 250 V

**MATERIALS:**

- Lamphshade: wood and glass diffuser
- Base: steel

Meaning of the symbols you will find on the page 93.

**FINISH OF LAMPSHADES**

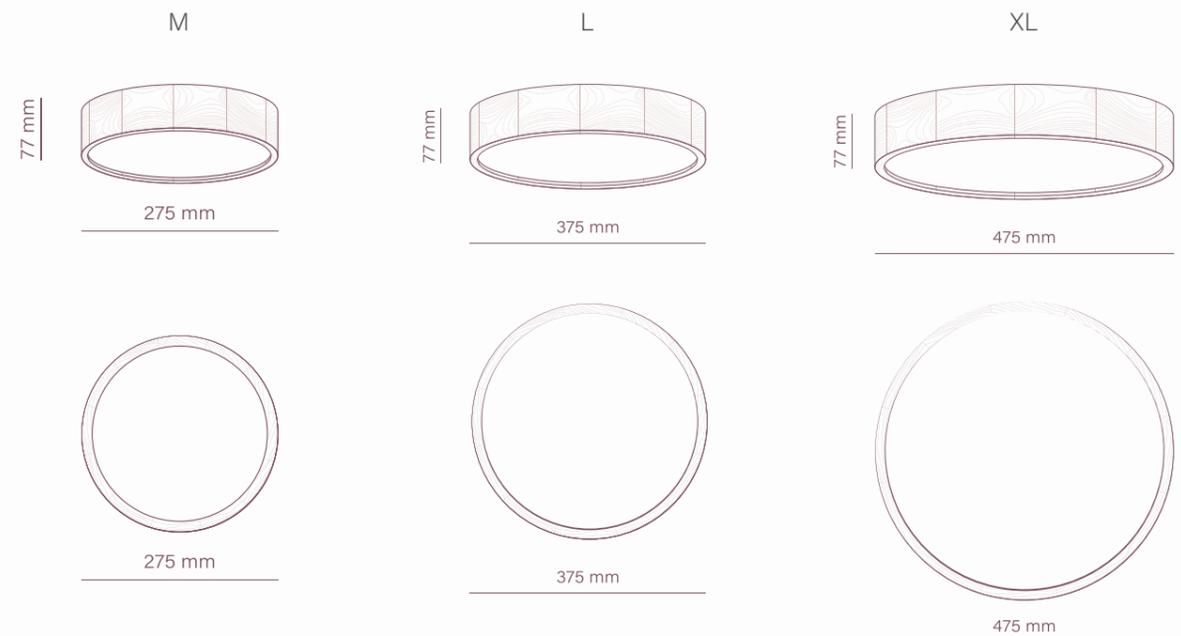

VISIBLE WOOD GRAIN

SMOOTH FINISH

**SIZE OF LAMPSHADES**
